

# | Guideship Partners

Diagnosing risk and utilizing intelligence drives our strategy to prepare for, respond to, and recover from emergencies. Guideship identifies risks that are specific to your organization, helps you understand why those risks exist, and implements achievable risk mitigation strategies.

We use a human centered, data-driven, holistic approach that analyzes industry, organizational profiles, and other unique criteria to create an agile state that provides optimal risk management solutions.

## DIFFERENTIATORS

- Benefits of an in-house risk advisory team without added overhead through cost-effective, tailored solutions.
- Dynamic service offerings allow for flexibility when designing the most optimal risk solutions for our clients.
- Training methodologies are designed to empower participants while addressing risk and regulatory needs.
- Decades of experience developing and leading security initiatives for the US Military, Federal Agencies, Global Firms and Non-Profit Organizations.

## OUR EXPERTISE

### OPERATIONAL RISK

We equip your organization to manage events and emergencies, both complex and low-impact, that may affect your people, assets, and processes with the potential to inflict loss.

### POLICY DEVELOPMENT

We ensure your organization keeps pace with regulatory and audit requirements in an ever-changing world of risk. We regularly develop and assess policies, plans, and procedures, using models that are recalibrated for new realities.

### TRAINING & AWARENESS

We provide thorough, practical, and easy-to-use concepts and training methods that align with your organization's risk profile and other cultural considerations.

### SPECIAL PROGRAMS

We leverage high-threat operational experience and a global network resources to provide specialized services.
